I have maintained health with Dr. Bryan's practice for seven years now. It was a struggle to walk the first time I went to his office. He helped me understand what changes were needed to keep me free from pain. I have a great life with free movement now. I now maintain with massage therapy twice a month with Holly. I told massage therapist Holly I was considering carpal tunnel surgery. She said let me work on very specific areas first before you consider surgery. She also told me that I should see Dr. Brian before I would consider surgery. She was right my hands and forearms don't even ache anymore. Thank goodness I told her about it before I went through painful surgery! I love to tell everyone about our successes. I fully and wholly trust Dr. Bryan.

I normally have a good experience, but Tuesday was the 2nd time I felt worse. Both times Dr. Bryan pushed hard in the middle of my back and it wouldn't pop. He forced it and it caused injury to my right breast. Today is day 2 after it and for the past 2 nights I had trouble sleeping due to pain. When I move my arm or touch my skin my right breast is extremely painful. I hope it heals soon, if not I may seek medical care from my physician.

I am so appreciative of Dr. Bryan's Corrective Chiropractic Office in New Buffalo. Seven Years ago when I started at his practice I was having a very hard time getting up, walking or bending etc. Movement was painful for me which packed on the weight because I didn't want to move. It's hard for me to believe that I was in such pain for so long. It took a few years of visits for correcting my back and getting my mind in a better place to understand what was causing my difficulty. Seven years later I am still going in for back massage twice per month. It is so inexpensive to get on a payment plan and follow it. This also helps me to keep my health in mind and think about my pain free future. Thank You Dr. Bryan!

Once again I was greeted by a person who said I would have to pay an additional \$60.00 for my appointment. After a short discussion in which I indicated that I was on the once per month plan, I was told that my appointment on the 6th had been completed, and that I had to pay. It was Corrective Chiropractic, that cancelled my appointment on August 6th. This is a persistent problem with this practice.

I look forward seeing her every month both for my massage and to see her as well. Holly is a great asset to Corrective Chiropractic and she is the reason I keep having a monthly massage. Dr. Bryan works miracles. Being skeptical of chiropractors for 51 years & never seeing one. A year ago I was faced with the ER and orthopedic Drs. to take care of my back pains. I could barely walk. Having back issues for the past 20 years i was never in such a bad condition. I was referred to Dr. Bryan and i felt that i couldn't get any worse so despite my doubts in chiropractors i had nothing to lose. Dr. Bryan improved my condition quickly. Within a few weeks i was doing great. I couldn't be more thankful for him and his passion to take care of people. No surgery for me! Thank you Bryan! M. Stevens

However I was looking forward to my first massage yesterday, but I had to wait almost an hour to get adjusted and then I didn't have time to get my massage. So I do think that the scheduling could have been better or maybe I could have gotten my massage while I waited. Hopefully this was a 1 time problem. Outside of that it has been a great place to go.

I fell down the stairs in January. I had such a huge bruise it turned into a massive hematoma. I saw many doctors and specialists, they recommended surgery but I refused. The hematoma eventually went away but I had severe deep tissue damage that was very painful. The pain eventually started to pinch my sciatic nerve. I was in so much pain I could barely stand up or drive. I went back to the doctor and got 2 prescriptions which I hated taking. They made me nauseated and weren't helping. Many people told me to just 'get a shot' for the pain. Thank God I didn't, I probably would have gotten meningitis! I saw Dr. Bryan and after a few weeks was pain free. My entire body feels better, I feel more well adjusted and stopped taking all of the nasty medication. This is my first chiropractic experience and it has absolutely changed my life! I came to the wellness center because i was visiting New Buffalo on vacation and my back went out...way out. I have a Chiropractor in Chardon, Ohio where I live and I was worried that I may not find the high quality of care that I'm used to. I was so pleasantly surprised when I first spoke to the office staff, they were kind, helpful and were able to get in contact with my home chiropractor to know exactly how to help me. They found me an appointment that day even though they were busy. The office itself is a warm inviting place with decor and aromatherapy that instantly calmed and relaxed me. Dr. Strother was wonderful. He took the time to talk with me about my past chiropractic experience and put my anxiety to rest. He gave me a wonderful adjustment that brought me from debilitated (barely walking) to playing on the beach with my kids in a matter of two days. Thanks to the wellness center my vacation was saved!

I can always feel an improvement in my mobility and a reduction of pain after being adjusted. The staff is very professional and their billing is clear. I get a clear billing statement at the end of the year for my tax deduction without problem.

We love Dr Bryan and his staff. They are so caring and treats us like family. Bekka does a wonderful job with therapeutic massage. It is obvious that she understands the anatomy, pressure points and getting muscles to relax.. Thank you!

The Wellness Center is an excellent resource for families that want to be happy, healthy, and full of positive energy! Our kids love coming in to get adjusted and picking Dr.Bryan's brain about alternative ways of doing things. An awesome staff takes care of you from the moment you walk in the door, letting you know, to them, you are family. The Wellness Center is a must if you are into breaking away from mainstream drugs and sweeping your aches and pains under the rug. They are there to teach your body to heal itself, as it should!

I chose The Wellness Center of New Buffalo, Michigan not only for the quality health care one receives but also for their belief's in total wellbeing. Once you enter you are greeted with a staff that knows you personally and moves you right along to see your doctor. No waiting in the lobby for hrs. on end. The staff, "MY" doctor, the massage specialist everyone there is there to help you improve your lifestyle so you can function at your fullest potential. I would and have recommended them to everyone I know.

Dr. Brian and his staff are thoughtful and diligent in response to my needs. They have my best interests in mind, and are not insistent on buying any of their products. In short-Dr. Brian, his wife Rose and their staff are just the best!
